## SOLID, SAFE, PROVEN & CERTIFIED HEAVY DUTY LIFTS FOR... HEAVY DUTY SERVICE

▲ Two post lifts offer **FULL unobstructed** vehicle access for all repairs, take up minimum space and leaves wheels hanging free for tire or any other necessary repairs.

### MOHAWK DESIGN

- Mohawk columns are constructed of  $\frac{3}{4}$ " thick forklift masts, for a **lifetime** of trouble-free service.
- Each Mohawk carriage rolls on 8 double-sealed, self-lubricating, steel **ball bearing rollers** (NOT plastic sliders).
- Two 4" heavy duty cylinders make for safer, steadier lifting than single cylinder lifts or models with tiny cylinders.
- Easily **adjustable** overhead stainless steel hydraulic lines can be set at **any** height (or routed in floor) to accommodate all tall trucks and vans.
- **Low profile** 5" swing arms fit under most passenger cars.
- Equipped with Mohawk's 5", 7 $\frac{1}{2}$ " and 10" stackable lift adaptor pads.
- 60 second lifting speed saves shops time and money.
- Available with optional lower height three stage swing arms that retract 2" (1" each side) shorter and reach 10" longer for varied fleets.

Mohawk lifts **DO NOT** use height restrictive overhead cable covers that limit lifting height.

**Includes:** ▶  
5", 7 $\frac{1}{2}$ " and 10"  
stacking adaptors (for  
hard to reach frames)

### MOHAWK PATENTED INDUSTRY LEADING SAFETY SYSTEMS

- Mohawk lifts feature **all position** mechanical safety locks in both columns, starting at the ground, to full lifting height.
- Patented, infinite position, internal hydraulic safeties backed by external pressure compensated flow controls and velocity fuse valving.
- Swing arm restraints automatically engage upon lifting and automatically disengage when the vehicle has been fully lowered.
- Lease/purchase plans available for 1-5 years.  
**Call Mohawk now!**

- The best, and most inclusive warranty in the lift business; 25 years structural, 10 year mechanical, plus limited lifetime cylinder seal warranty. **Mohawk builds the best lifts, with the best warranty.**

### OPERATION

- Hydraulic fluid is pumped between the two cylinders through the overhead (or optional in-floor) stainless steel hydraulic lines. Patented hydraulic synchronization eliminates the need for restrictive height overhead covers, cables, pulleys, equalizer chains or obstructive floor plates.

▲ Mohawk's **large and stable footprint** measures 30" wide by 24" is made of 3/8" thick plate. Mohawk's large base gives stability to the lift, while distributing the load to the shop floor.

3  
▲ Mohawk's fork lift channel & bearing (top right) VS. 3 different sheet metal columns which use plastic slides. Like your fork lifts mast, **Mohawk Lifts DO NOT WEAR OUT!**

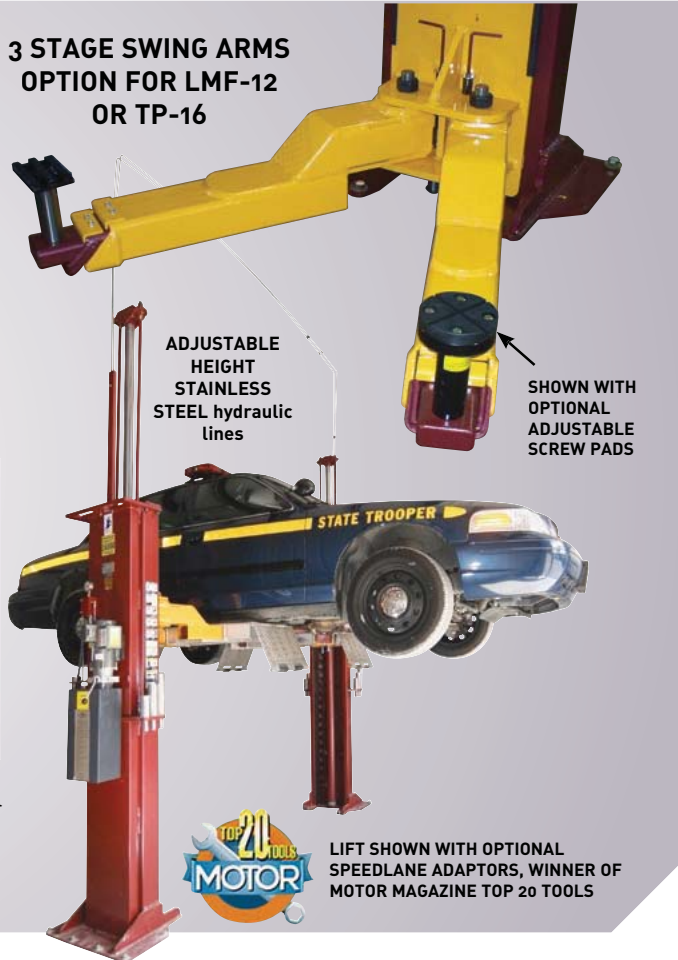

4  
▲ Heavy duty column construction with direct drive cylinders, direct drive lifting rods (not cables) and stainless steel hydraulic lines (not rubber hoses) which will never wear.

10  
▲ **FORK LIFT CHANNEL** & bearing (bottom) vs. competitive columns & plastic slider (top)

9  
▲ **LARGE 4" CYLINDERS** equal longer seal life and lower operating pressures vs. smaller competitive cylinders.

LIFT SHOWN WITH OPTIONAL SPEEDLANE ADAPTORS, WINNER OF MOTOR MAGAZINE TOP 20 TOOLS

5  
▲ Each carriage rolls on (8) 4" double sealed, self lubricating, heavy duty ball bearing rollers for a lifetime of trouble-free service (not plastic slide blocks).

6  
▲ ALL position 1" thick mechanical locks on BOTH carriages engage the full length of travel. Available with optional single point air lock release (requires air to lift).

- To raise the carriages, Mohawk's LMF-12, TP-16 and TP-18 use direct drive lifting rods which eliminate the wear & maintenance associated with lifts that use cables, chains, & overhead cable covers.
- Mohawk carriages roll on eight double sealed, self-lubricating, steel ball bearing rollers, for a lifetime of maintenance-free operation.
- Mohawk bearings last longer, with less friction and wear than competitive lifts using plastic slide blocks which need constant greasing and maintenance.

**What other lift offers a 25 year structural warranty?**

## 2 POST ACCESSORIES

**Safety Weight Gauge**  
to determine vehicle weight, aid vehicle diagnosis & show lift is lowered onto locks.

**Speedlane Adaptor**  
Slips on quickly for instant lifting without positioning swing arms yet leaves the wheels hanging free for tire and brake work.
